

Medical Student Radiology Attachment

5th Year Students, Central Middlesex Hospital

Welcome to the department of radiology. We hope you find this week interesting and useful.

Report to: Juliette Thompson, Undergraduate Centre, 2nd floor, Central Middlesex Hospital (CMH) **at 8.30am**. Tel : 020 8453 2529 / mobile 07976 516 972.

Subsequently to: Sardha Liyanage / Kavita Modha (radiology secretaries) at radiology reception, BeCAD, CMH, **at 9.15am**. Tel: 0208 453 2275 Ext: 2275
You will then have an induction and tour by a radiologist.

Objectives

The fifth year medical students are expected to shadow radiologists and radiographers in order to:

1. Understand the basis, uses and short-comings of common imaging modalities
2. Follow patient's experience through various imaging procedures
3. Be aware of patient eligibility and considerations for various imaging procedures
4. Learn how to request imaging appropriately
5. Engage in basic imaging interpretation
6. Appreciate the dangers of radiation and the concept of justification in using imaging involving radiation

Attendance log / Feedback

The timetable is attached. Friday is allocated as 'self directed learning' during which the Imperial radiology e-module can be completed. The postgraduate centre (level 2, BeCAD) and library (ground floor, ACAD, CMH) are available for use. Lunch times are for a 'working' lunch – please feel to bring your lunch to the MDMs/teaching sessions.

You are responsible for getting your attendance log signed by the supervising radiologist for each session. This will be photocopied at the end of the attachment and non-attendance will be reported to Imperial College. Please ensure that you return feedback forms at the feedback session to help us to tailor the attachments according to your needs.

Radiology Department

The main radiology department is located in the main BeCAD corridor of Central Middlesex Hospital, opposite the A&E staff entrance. Note that Wednesday's sessions take place at Northwick Park Hospital.

BeCAD (CMH)

- CT CT reporting room BeCAD
